

**“Training and Self-Empowerment for the 21<sup>st</sup> Century”**

**Airbrush Specialist**

**Course Description 57 Hour Course (19 Weeks @ 3 Hrs. per session [one session per week])  
Accelerated Path ( 9.5 Weeks @ 3 Hrs. per session [two sessions per**

As technology continues to change, the airbrush profession continues to provide new career opportunities. With the introduction of HDTV and digital photography, airbrushing has moved up in the ranks as a necessary skill needed for the many professionals. Special events, such as weddings, and red carpet events are using cosmetic airbrush professionals. The growing use of airbrush skills applied to the film industry is in high demand.

This program is designed for the inexperienced student seeking to learn about specialized airbrush uses and application. Participants will start with airbrushing fundamentals leading to an expertise in specialty applications of the cosmetic industry.

**Course Objectives**

The Cosmetic Airbrushing program is a 57 hour **“hands-on”**/ how to class. Participants will learn systematic airbrushing techniques including basic airbrushing principles, and application. A variety of surfaces and materials will be explored, with an emphasis on cosmetic applications. A focus on safety with equipment and cosmetic application will be addressed. Self-employment and career opportunities will be emphasized throughout this program. Upon course completion a number of airbrushing skills and applications will be acquired.
