

## “Training and Self-Empowerment for the 21<sup>st</sup> Century”

### LOCKSMITH SECURITY

**Course Description** – 54 Hour course ( 18 weeks @ 3 hrs. per session [ one session per week]  
Accelerated Path - 54 Hour course ( 9 weeks @ 3 hrs. per session [ two sessions per week]

This 54 hour program was developed to provide participants with an introduction to the basic components of locksmithing. Students are instructed in the principles of operation, how to disassemble, inspect and reassemble various units. By using “**hands-on**” exercises, participants will learn to use a systematic approach to locksmithing. Students will receive in-depth training on locksmithing techniques.

People continue to want and need better security devices for both their homes and their businesses. Since 9-11-2001, emphasis on security/safety, has taken a front seat for security professional services. Locksmith professionals are in demand as residential and commercial security needs continue to grow. Career opportunities are available for the trained locksmith in both sectors. Successful locksmiths utilize both precision and creative problem-solving skills and salaries can average \$35,000 per year.

### Course Objectives

This course is designed to provide practical “**hands-on**” training for participants interested in learning the Locksmithing trade. With an emphasis on entrepreneurial skills, students will learn both residential and commercial techniques for lock installations, and problem solving for “lock-outs”.

### By completing the Locksmithing course participants will receive:

- ◆ A fundamental understanding of the locksmithing industry and techniques
- ◆ Safety tips and techniques
- ◆ Familiarity with basic locks, tools and situations
- ◆ Income generating capabilities
- ◆ Reading and using diagrams
- ◆ Supplies procurement information
- ◆ Problem solving, time management and quality control experience
- ◆ Tool usage
